## *Lyrics*

### **1. A New Start**

*Instrumental*

## **2. *Free***

I can see it in the way you smile  
You don't love you like I do  
And I notice when I hear you talk  
You just want to be set free

### ***3. Trapped In Something***

We are all trapped in something we cannot fully explain  
But this realm of existence, it's all we've got  
It's the only game

If you wish to run away from your fate  
You'll find yourself back at the start  
The only way to escape  
Is to live and to meditate

#### **4. Samsara**

*Instrumental*

## **5. *Time Does Not Last***

You, alone in the corner  
Keep your head held high  
Cause these days go by fast

And you, on top of a mountain  
Throw down your rope  
Because your days won't last

Days go by faster and faster it seems  
You cannot think if you do not breathe  
You should step back and enjoy  
The Scene.

## **6. *Another New Start***

*Instrumental*
